Recommendation Letter

SRMC-Romanian Carbon Materials Society is a nongovernmental organisation that include researchers, engineers, chemists which involve they activity in the field of carbon materials.

In the frame of this Society activate also engineers from SC ROSEAL SA.

SC ROSEAL SA is a factory that produce gaskets with a large range of applications, using some materials including carbon materials. In this factory there are a research team with a scientific activity in the way to establish new and advanced materials. The results of this activity was presented at the scientific meetings of SRMC.

We have the pleasure to ascertain that the company staff is permanently concerned in involving collaboration with other researchers from our Society as well as to ensure a high professional level.

Academician Professor PhD. Alexandru Balaban
President of SRMC
